

Econ 113: January 29, 2015

- Methodology: Reading Regression Results
- Westward Expansion
- Indian Removal
- Transportation
 - Roads
 - Canals
 - Railroads
 - Effect on prices

*PS 1 is available on course website
Due Thursday Feb 5 at 11:10 a.m.*

Interpreting Econometric Results

- Start with a specified functional form of a relationship
- Econometrics gives us an “estimated” form of the relationship
- But what is Truth?

Regressions Indian Removal Westward Expansion Transportation Infrastructure

Econometrics. . . The easy way

- Assume a “normal” distribution of possible “True” value of β around estimated value of β

Regressions Indian Removal Westward Expansion Transportation Infrastructure

The t-stat matters, lots

- Next, find or estimate the t-statistic
- If $t > 2$, estimate is “statistically significant”
That is, the estimate has the correct sign : + or -

Regressions Indian Removal Westward Expansion Transportation Infrastructure

Where is 0? (positive β)

- If $t > 2$, then good bet that estimated value of β has correct ("Truth"ful) sign. "Statistically significant"

Regressions

Indian Removal

Westward Expansion

Transcontinental Railroad

Where is 0? (negative β)

- Here, $t > 2$, and estimated value of β is negative. "Statistically significant"

Regressions

Indian Removal

Westward Expansion

Transcontinental Railroad

β might be zero

- If $t < 2$, then you can't be confident in the estimate's sign. "Not statistically significant"

Population Density, 1830

Population Trends: Westward Expansion, 1830

Westward Expansion

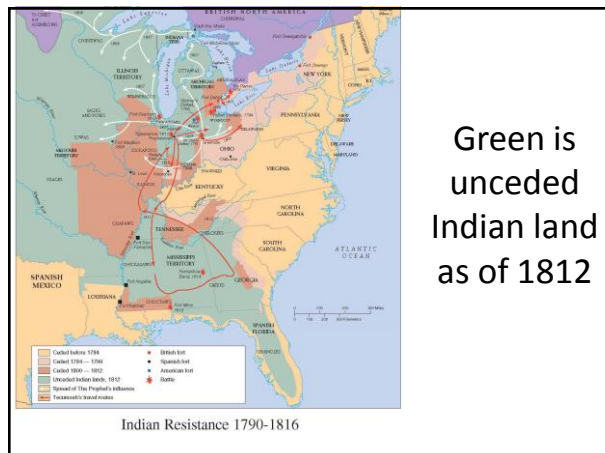

Table 5. Movement of Population West

	% of U.S. population living in west of Appalachians
1810	15
1830	29
1850	43
1860	49

Source: Derived from U.S. Bureau of the Census (1975), *Historical Statistics*, Series A7, A195.

Removal of Indians

- Battles and treaties and battles
 - 1780s: series of treaties
 - 1790s: battles and treaties
 - 1794: U.S. Army defeated Western Indian Confederacy
 - Confederacy = group of tribes from Northwest Territory
- 1830s: Removal of Southern Indians along the "Trail of Tears"

Green is unceded Indian land as of 1812

Cherokee Nation

- President Jackson's claim:
 - uneducated: *"Most of your people are uneducated. . ."*
 - poor: *"... a large portion of your people have acquired little or no property in the soil itself. . ."*
 - not agriculturally skilled or equipped: *"... or in any article of personal property which can be useful to them."*
- Wishart: Does the evidence support Jackson's claim?

Uneducated?

Table 1. Cherokee Literacy Rates, 1835

	# of Cherokee households	% of all Cherokee households	
		literate in Cherokee	literate in English
GA	1,350	53	13
NC	650	48	5
TN	424	57	40
ALA	245	57	38
Overall	2,669	53	18

Source: Wishart, David, "Evidence of Surplus Production," Tables 1 and 2.

Poor?

Table 2. Cherokee Slave Ownership, 1835

	Of all Cherokee households, % that owned African slaves		Of slave-owning Cherokee households, mean # of slaves owned
	households, %	mean # of slaves owned	
GA	7	8.0	
NC	2	2.3	
TN	13	8.4	
ALA	16	7.5	
Overall	8	7.6	

Source: Wishart, David, "Evidence of Surplus Production," Tables 1 and 2.

Not agriculturally skilled?

Table 3. Percentage of Cherokee Households Achieving Self-Sufficiency in Corn Production

	% of all households	% of corn-producing households
NC	46.1	48.4
GA	46.4	52.1
AL	59.1	76.7
TN	63.9	74.0

Source: Wishart, Table 4.

Evidence of Crop Diversification

- No direct evidence, but can estimate

$$\text{Yield per acre} = \frac{\text{Output}}{\text{Acres}}$$

Crop Diversification

• Result:

$$A = 3.72^{***} + 0.0591^{***} \times Q_{corn}$$

$$\frac{1}{0.0591} = 16.92$$

Diversification Evidence

Table 4. Estimates of Yields & Acreage in Other Crops

	Yield per acre	Acreage in other crops
TN	17.7***	6.2***
AL	15.0**	5.3***
NC	18.6***	4.2***
GA	17.9***	3.3***
Overall	16.9***	3.7***

***significant at 1 percent level.

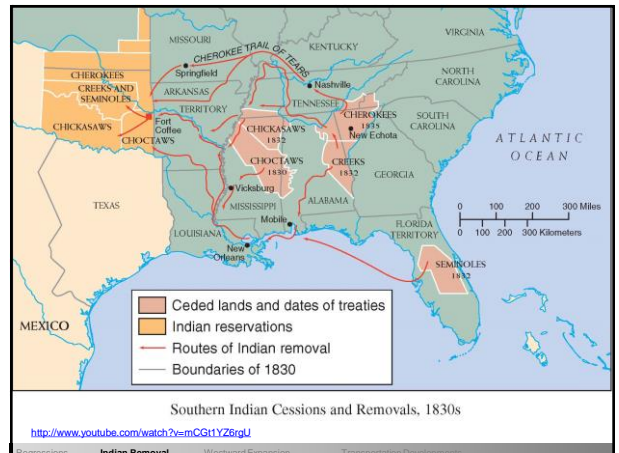

**significant at 5 percent level

Source: Wishart, Table 7. Reported results are based on data for just corn output.

- How did people get to the west?

Travelogue: Museum

Museum of the Westward Expansion, St. Louis, MO, under the arch.

Land Growth

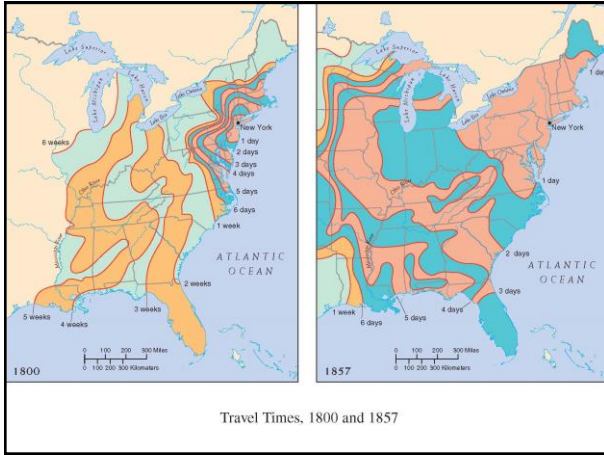

MAP 8.1 Land Growth The purchase of Louisiana marked the beginning of the continental expansion of the United States, which culminated in the purchase of Alaska in 1867 and the annexation of Hawaii in 1898.

- U.S. land mass “complete” by mid-1800s

MAP 8.3 Moving Frontier Census data from 1800 onward chronicled the constant westward flow of population. The “frontier,” its profile determined by natural attractions and a few man-made and physiographic obstacles, was a magnet for the venturesome.

- The movement of the frontier to the west
- But it took a LONG time to get there . . .

Initial Transportation Modes

- Overland Routes (roads)
- River Routes
- Ocean Routes

Recessions Indian Removal Westward Expansion Transportation Developments

Transportation Developments

- **Turnpikes**
 - plank roads
 - tolls charged

Recessions Indian Removal Westward Expansion **Transportation Developments**

Transportation Developments

- **Turnpikes**
 - plank roads
 - tolls charged

- initially private funding . . .
- eventually public funding

Canals

This painting shows the junction of the Champlain Canal and the Erie Canal—an important point on the trade route that was to become the preeminent link between Midwest and East Coast urban centers.

RATES OF TOLL ALLOWED BY LAW ON PATUCKET-CANAL.

Salt, lime, Plaster, Bar Iron, Pig Iron, Iron Castings, Anthracite Coal, Stone and Hay per Ton	22 40	lb. B. Crts.	
Bituminous Coal, Per Chaldron of 36 Bushels (2 Crts)			20 ..
Brick, Per Thousand	16 ..		
Manure Per Boat Load	50 ..		
Oak Timber Per Ton of 40. Cubic feet.	55 ..		
Pine	25 ..		
Spares	50 ..		
Pine Plank and Board Per M. (Board Measure)	50 ..		
Oak	60 ..		
Ash and other hard stuf	40 ..		
Clapboards Per M.	25 ..		
Shingles	6 ..		
Laths	6 ..		
Posts and Rails Per hundred	15 ..		
Treenails Per Thousand	50 ..		
Hop Poles	20 ..		
Hard Wood Per Cord			20 ..
Pine			46 ..
Bark			20 ..
White Oak Pipe Staves Per M.			100 ..
Red			67 ..
White Oak Hogshead Staves Per M.			60 ..
Red			40 ..
White .. Barrel			50 ..
Red			20 ..
Hogshead Hoops			16 ..
Barrel			12 ..
Hogshead Hoop Poles			50 ..
Barrel			20 ..
All other Articles Per Ton of 2240 lbs.			10 ..

Articles That do not pass through more than three Locks to be charged only half the above rates of Toll.

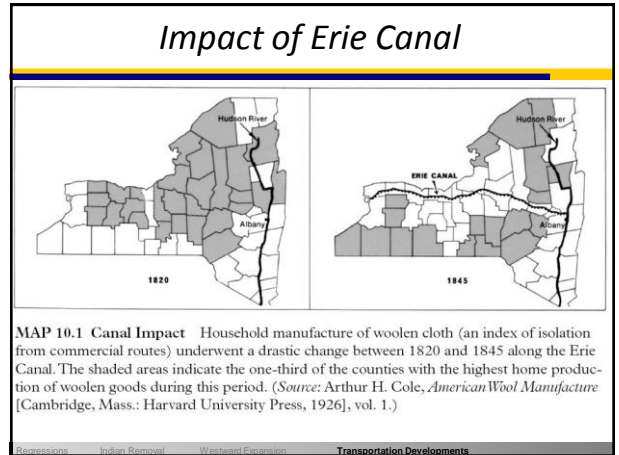

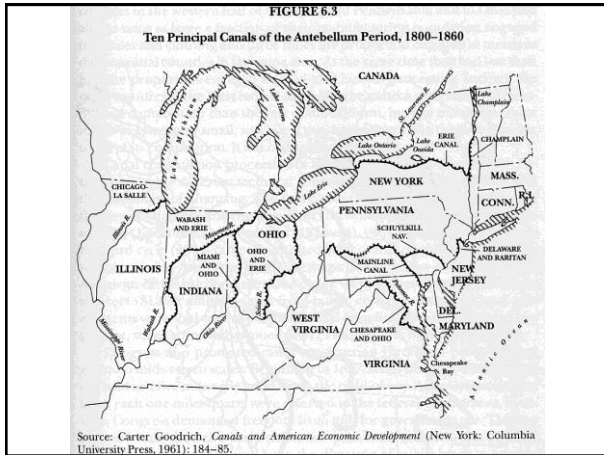

Canal Cycles

Table 6 Canal Cycles

period	\$ spent (millions)	% financed with government money
1815-43	\$31 m.	75 %
1844-60	\$66 m.	66 %
