

**Department of Economics  
University of California at Berkeley**

**Application for Department PC Computer Account**

The Department is a member of the campus Windows Active Directory system (CalNetAD). Your account is your CalNet ID (SID in the case of registered students). In order for you to be able to login to our managed machines, your account has to be authorized. Access to machines managed by other campus units who are also part of Active Directory is governed by their local policies.

In order to add your account to the Economics Organizational Unit we need to know your CalNet ID or SID (but NOT your passphrase). We will also keep a list of this information in the event we need to contact you about your account. Non-CalNetID/SID holders may be assigned accounts local to the Economics OU.

Your account lifetime is governed by the validity of your ID. We do not extend account access to undergraduate students except in special circumstances.

An account is issued to a specific individual who is held responsible for all activity within his/her account and agrees not to allow any other individual to access his/her account. This account cannot be used for any commercial activity where any form of compensation is obtained as a result of the use of this account. Economics Department policies apply to all accounts, and acceptance of this account implies acknowledgement and acceptance of all Economics Department policies. This account is a privilege and as such can be revoked if misused. Files under this account are not personal property; as such, the Economics Department reserves the right to review, modify, or delete any file or terminate any activity that may interfere with the operations or security of the Economics Department. Information regarding specific Economics Department policies and rules is available online (refer to <http://econ.berkeley.edu> under Computer Resources and 'Park Avenue'). All questions should be addressed to the Economics Department System Administrators in room 687 Evans Hall (643-5397).
