

Econ 122, spring 2007  
Professor Joseph Farrell

First written assignment: assigned in class February 1; due in my mailbox (611 Evans) or under my office door (519 Evans) no later than 5pm Wednesday February 7.

Write a short (1-2 pages, as loose guidance) memo addressing the following questions:

1. What do you tentatively think so far about net neutrality, and (briefly!) why?
2. What would you need to know in order to improve your answer to (1)? Here, I would like you to focus on things that you/we may be able to find out, more than on important but un-knowable things.
3. What have you found most interesting in the class so far?
