

Corrigendum to "Place Based Policies, Heterogeneity, and Agglomeration."

In the process of shortening this article for the printers some important typos arose as my handwritten edits were misunderstood. Corrections follow:

1) The equation for local wages on the first page should read:

$$\ln w_j = C + \frac{1}{\alpha} \ln B_j - \left(\frac{1-\alpha}{\alpha} \right) \ln c_j$$

where $C = \ln \alpha + \frac{1-\alpha}{\alpha} \ln (1-\alpha)$.

2) Equation (1) should read:

$$g_{\Delta}(L_1) = B_1^{\frac{1}{\alpha}} c_1^{-\frac{1-\alpha}{\alpha}} - B_2^{\frac{1}{\alpha}} c_2^{-\frac{1-\alpha}{\alpha}} + A_1 - A_2 - F^{-1}(L_1)$$

And the first displayed equation in Section II should read:

$$g_{\Delta}(L_1) = h_1(L_1)^{\frac{1}{\alpha}} c_1^{-\frac{1-\alpha}{\alpha}} - h_2(1-L_1)^{\frac{1}{\alpha}} c_2^{-\frac{1-\alpha}{\alpha}} + A_1 - A_2 - F^{-1}(L_1)$$

3) In Figure 3, the label "Relative supply (Big push)" should read "Relative demand (Big push)"
